This is Printing Power
Made for Healthcare

15 hours

Inefficient printing systems can cost up to 15 hours of wasted labor per week in downtime and worker stress. That's why System One Medical partners with Zebra to:

Cut up to 15% of HIPAA data breaches that are related to printers	Reduce 40% of time wasted using outdated data entry methods	Accelerate printing so your staff can better serve patients	Save as much as $150 per printer upgrade	Prevent costly cyberattacks and downtime

Trade in outdated and legacy devices
for dependable print and scanning performance.

Intelligent scanning
with DS8100-HC

Healthcare-grade durability
with DS4600-HC

Compact printing
with ZD420-HC

Plus –

1 Up to 600dpi resolution

2 Eye-friendly LED aimer

3 Smart PRZM scanning

4 Disinfectant-ready design

5 Heat-resistant printheads

6 And more

Eliminate inefficiency from your healthcare facility with System One Medical.
